PROFESIONAL RESUME

Talent Acquisition Specialist. Data-driven human resources professional who prioritizes both employee experience and candidate experience. Knowledgeable in data visualization and the management/development of key performance indicators. Strong foundation in HR process automation and talent analytics. Recognized for analytical skills applied to talent data, recruitment funnels, and HR process optimization. Experienced in leading automation and process improvement projects. Expert in full-cycle recruiting for technology roles in software development, web development, mobile development, data science, data engineering, Machine Learning Operations, DevOps, IT Support, blockchain development, and game development.

With a data-driven mindset and a critical eye for trends, outliers, and areas for improvement. Skilled at leveraging analytics and automation platforms to optimize HR workflows, applying analytical thinking to interpret recruitment metrics and improve decision-making. Eager to drive scalable innovation in HR operations through AI, automation, and strategic data analysis. Vibe Coder, advanced user of AI tools, and experienced in Agentic AI.

PROFESSIONAL EXPERIENCE:

IO PEARLS LATAM

Talent Acquisition Specialist

2025 – Present

- End-to-end talent acquisition management for high-demand technology roles, sourcing talent in software development, web development, mobile development,

data science, data engineering, Machine Learning Operations, DevOps, IT Support, blockchain development, finance and fintech profiles, and game development.

- Creation of longlists for internal and external hiring manager clients.
- Process automation and improvement using Artificial Intelligence.
- Conducted competency-based interviews and assessments.
- Managed and visualized KPIs in Excel and Power BI.
- Coordinated onboarding sessions and team training activities (calendars, invitations, attendance, feedback forms, and access management).
- Developed job profiles/job descriptions.
- Managed and coordinated internal and external clients.
- **Process Improvement and Automation Projects:**
- Participated as **Product Owner** in the design of an AI-based profile recommendation solution.
- Led a CV formatting automation project that saved **40 hours of manual work per person**, improving recruitment time by **25%**.

IO PEARLS LATAM
